Color Picker

The screenshot shows the CR-Browser application with a 'Configuration' window open. A 'Choose Directory' dialog box is displayed in the foreground. The dialog has a title bar 'Choose Directory' and a 'Look in:' field showing '/home/nica'. Below this is a table listing directories and their last modified dates. At the bottom, there is a 'Directory name:' text box, a 'Show hidden directories' checkbox, and 'Choose' and 'Cancel' buttons.
